

“Your Eastside Information Management Professionals”

Program Announcement

Program Title: “Common Cyber Security Threats”

Speaker: Ric Testagrossa

Information Security Engineer, Fred Hutch Cancer Research Center

Date & Time: Wednesday May 10th, 5:00 pm to 7:00 pm

Location: Bellevue City Hall 1E-112

450 110th Ave NE, Bellevue, WA 98004

Cost: \$15

Chapter Members: Bring a Guest for **Free!** Bring your boss, a co-worker, or business associate at no cost. Please indicate the name of the guest in the comments section of the registration form.

Can you tell a Botnet from a Trojan? Do you know what they are? Can you identify ransomware or malicious email attachments? More importantly, are you and your company doing everything it can to combat these threats?

If the answer is no or not sure to any of these items, then we have the presentation for you. Please join us as we hear from Ric Testagrossa on how to identify these attacks and effectively respond to them.

About the Speaker:

Ric Testagrossa is an Information Security Engineer with Fred Hutch Cancer Research Center. He has over 20 years of professional experience in Information Technology, with 12 years experience in IT Security. He has worked for several organizations such as the University of Massachusetts, Pima Community College, and Seattle Children’s Theater. His specialty is teaching user awareness about various computer/network threats.
